

Hammersmith Grove

26-28 Hammersmith Grove is currently owned by Surveyors Montagu Evans who have awarded Adsec the contract to provide Front of House Security Guarding to the office building which is an attractive modern space of 200,000 square feet with open glass panels to the facade, within easy access to Hammersmith station and the Broadway shopping centre. The Front of House day staff meet and greet visitors, tenants and contractors, ensuring all are welcomed professionally and efficiently. By projecting a capable demeanour these individuals have a duty to give visitors their first taste of the buildings culture; of quiet professionalism.

Out of Hours the building remains busy with a number of tenants working around the clock, meaning that the security staff tasks are multi-faceted, from completing patrols to ensure the control of building management systems, providing access to tenants, controlling car park use and ensuring security is not compromised.

Montagu Evans LLP Chartered Surveyors is a highly focused and dynamic property consultancy established since 1921 operating throughout the UK. The partnership has a reputation as a highly skilled and professional practice enhanced by the policy of providing clients not only with advice on the possible and plans for the practical, but with high-level counsel on commercial viability and potential returns. From traditional strengths of valuation, town planning, rating and compulsory purchase and compensation they have successfully expanded into commercial agency, investment and development consultancy and are now one of the foremost firms of chartered surveyors in the country.

Montagu Evans are involved in high-profile projects across the property spectrum, from the management of flagship offices for international concerns to the development of award-winning business parks, and from strategic investment advice to participation in creative regeneration schemes that are changing the faces of our inner cities.
